

Sharp and Non-Sharp Sorting Activity

Appropriate for grades JK-5

Cut up the images of the sharp and non-sharp objects. Glue the images of the sharp objects in the "Sharp Objects" column, and glue the images of the non-sharp objects in the "Non-Sharp Objects" column.

Remember, if you find sharp objects at school or in the schoolyard, **DO NOT** touch them or pick them up. Make sure you tell an adult, like a teacher, secretary or principal, and stay away from the sharp object.

Sharp Objects

**Non-Sharp
Objects**

Sharp and Non-Sharp Sorting Activity
