The Board of Health for the North Bay Parry Sound District Health Unit (Board) would like to share with you the resolutions passed at our recent meeting on February 27, 2019. The resolutions highlight our continued support of staff and community stakeholders to reduce health inequities, and our support for Bill 60, an act to amend the Ministry of Community and Social Services Act to establish the Social Assistance Research Commission. A copy of the motion passed is included as Appendix A.

One in seven households in our Health Unit region experience food insecurity. Included is a copy of our [2018 Food Insecurity poster](#), highlighting this important statistic, as Appendix B. Our goal with this key messaging is to emphasize the magnitude of this issue in our area. The [full report](#) is available on our website.

While our community has a broad gamete of important social service and food charity programs in place to assist those experiencing food insecurity, this complex issue cannot be adequately or sustainably addressed at the local level. Food insecurity is defined as inadequate or insecure access to food due to financial constraints, which highlights low income as the root of the problem. Our Health Unit continues to raise awareness about the importance of income security for low income Ontarians, in an effort to reduce food insecurity rates. Food insecurity is a significant public health problem because of its great impact on health and well-being. In light of the release of the new Canada's Food Guide, it is important to note that these dietary recommendations are out of reach for many low-income Canadians.

While there are a number of risk factors for being food insecure, social assistance recipients are at particularly high risk. Research has shown that 64% of households in Ontario receiving social assistance

experience food insecurity, demonstrating that social assistance rates are too low to protect recipients from being food insecure. For this reason, our Board supports Bill 60, an act to amend the Ministry of Community and Social Services Act to establish the Social Assistance Research Commission. This group will make recommendations on social assistance policy, including social assistance rates based on the real costs of living in regions across Ontario, taking into account the cost of healthy eating. Our Health Unit, community partners and households receiving social assistance are eagerly awaiting the release of more details about the changes that will be made to Ontario's social assistance system following Minister MacLeod's announcement on November 22, 2018. Please consider the establishment of the Social Assistance Research Commission as part of the changes that will ensue by prioritizing Bill 60.

Last year, we expressed our [support and feedback](#) to the previous government on the [Income Security: A Roadmap for Change](#) report. This report was prepared in collaboration with many experts, including Indigenous representatives, and has already undergone a public consultation process. Please take into account the elements outlined in this report when implementing changes to the current social assistance system. We emphasized this last August, when we [expressed our concern](#) about the cancellation of the basic income pilot project and the reduction to the scheduled increase to social assistance rates in 2018.

Thank you for taking the time to review this information and we will look forward to hearing next steps in strengthening income security in Ontario.

Sincerely,
